Industry Challenges
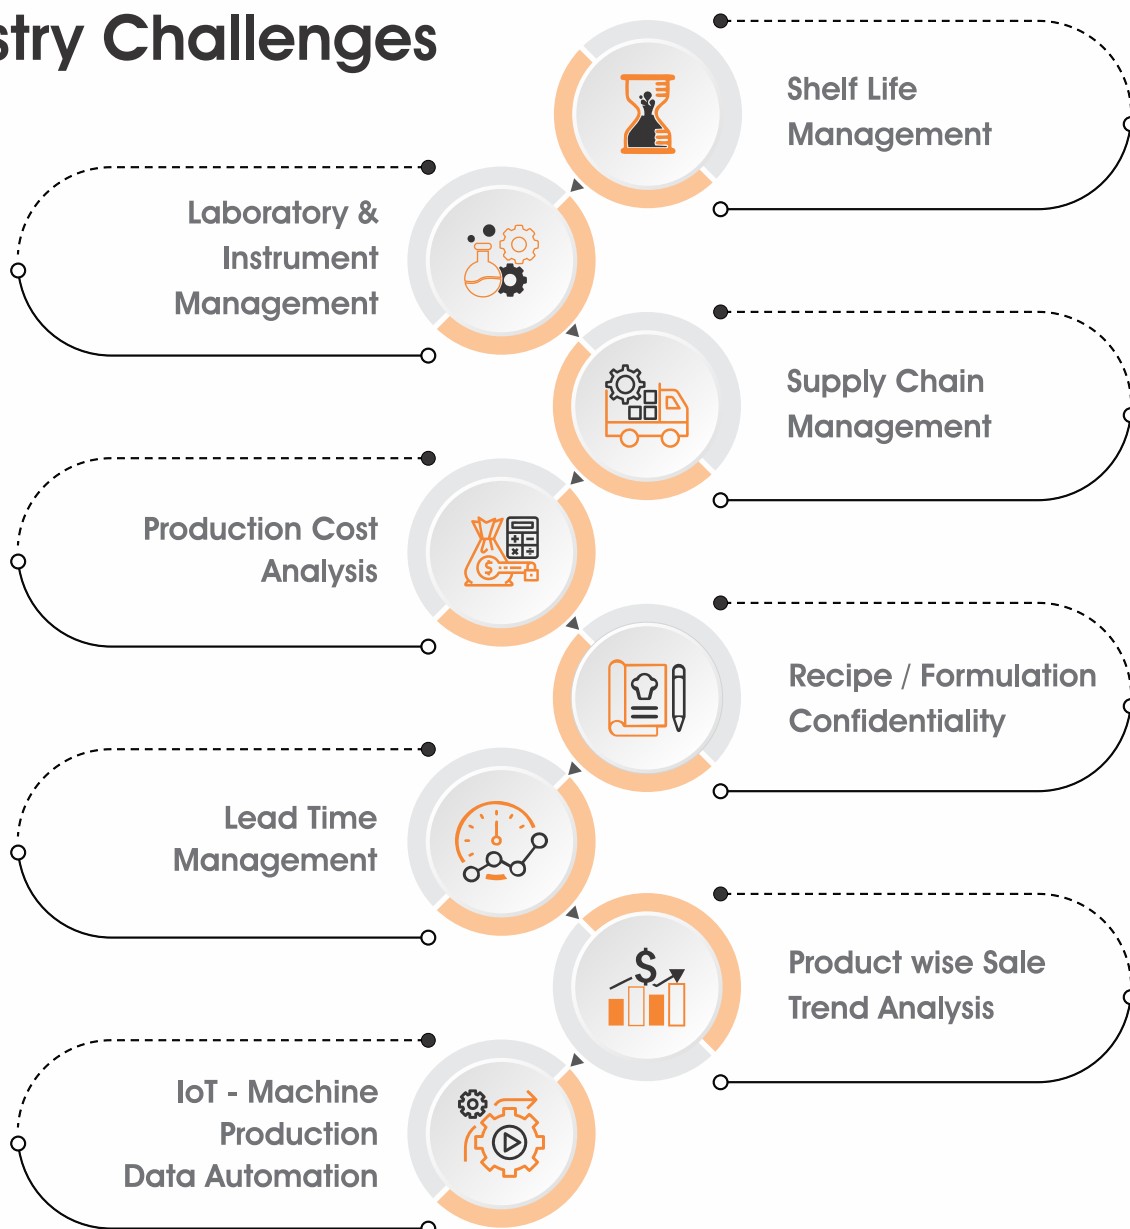

Shelf Life Management

Laboratory & Instrument Management

Supply Chain Management

Production Cost Analysis

Recipe / Formulation Confidentiality

Lead Time Management

Product wise Sale Trend Analysis

IoT - Machine Production Data Automation

Food industry operations are now sorted with DataNote ERP

DataNote ERP offers multifaceted benefits across the diverse horizons of the food industry. From agricultural production to food processing, distribution, and retail ERP software comes with a lot of benefits and perks. Let's discuss this in detail:

Bakery

Accelerate product development
Facilitating collaboration between teams, and streamlining processes such as recipe formulation.

Quick scale-up production
Optimize resource allocation, automate production scheduling, and provide real-time insights into inventory levels.

Control costs
DataNote ERP enables businesses to identify cost-saving opportunities, streamline processes, and maintain profitability.

Ensure compliance
DataNote ERP enables businesses to uphold safety and quality standards, mitigate risks, and demonstrate compliance.

Improve planning and scheduling
Facilitates efficient workflows, reduces lead times, and ensures timely delivery of products to meet customer demands.

Snacks

Batch processing
Automate recipe management, ensuring consistency in product quality, and tracking ingredients.

Production planning
Optimize resource allocation, streamline workflows, and meet production targets efficiently..

Inventory management
Provides real-time visibility into stock levels, streamlining procurement, reducing carrying costs, and preventing stockouts.

Daily forecast
Anticipate demand accurately, optimize production schedules, and minimize waste.

Traceability
Ensures transparency and accountability in the snacks industry by tracking products throughout the supply chain.

Food industry operations are now sorted with DataNote ERP

DataNote ERP offers multifaceted benefits across the diverse horizons of the food industry. From agricultural production to food processing, distribution, and retail ERP software comes with a lot of benefits and perks. Let's discuss this in detail:

Agro

Field activities
Streamline operations by digitizing field data collection, crop monitoring, and equipment maintenance.

Deep traceability
Provides comprehensive insights into the entire lifecycle of food products, including origins, processing, and distribution channels.

Manage inventory
Optimize stock levels, automate replenishment processes, and track inventory movements in real-time.

Labor records
Streamlines workforce management by tracking employee hours, wages, and performance metrics.

Crop management
Providing tools for monitoring crop growth, managing inputs, and optimizing cultivation practices.

Dairy

Data capturing
Complete bidirectional traceability with automated data capture and real-time updates enables tracking of catch weight values through to invoicing.

Inventory management
Inventory management with expiration date tracking minimizes food waste.

Identify errors
Efficiency metrics identify bottlenecks and enable improvement.

Financial analysis
Financial analysis determines profitability and cost-saving opportunities.

Precise production control
Better production control is achieved by implementing upper and lower catch weight thresholds, allergen management, and automated scheduling of sanitation and safety checks.

# DataNote: Your Comprehensive ERP Solution

DataNote: Empowering Business Excellence

DataNote is a comprehensive ERP system meticulously crafted to optimize your business operations. Equipped with a suite of robust features, DataNote empowers you to streamline processes, augment efficiency, and propel growth.

Customizable Source Code

Tailor DataNote to your specific business needs with customizable source code, ensuring a seamless fit for your organization's unique requirements.
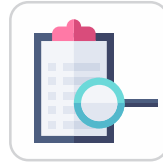

Audit trail log management

Maintain data integrity with DataNote's audit trail log management, providing a comprehensive record of all system activities for accountability and transparency.

Global Reach with Multi-language Support

Eliminate language barriers and foster effective collaboration across diverse teams and regions with DataNote's comprehensive multi-language support.

Machine integration for real-time data

Extend DataNote's functionality by seamlessly integrating with third-party applications, optimizing productivity and workflow efficiency.

Dynamic Functionality for Evolving Needs

Stay adaptable to changing business demands with DataNote's dynamic functionality, ensuring flexibility and agility in your operations.

Centralized Document Management

Organize and centralize your documents efficiently with DataNote's document management feature, facilitating information retrieval and collaboration.
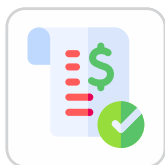

Stay Connected with WhatsApp Alerts

Enhance communication and collaboration by staying connected with your team and clients through DataNote's seamless WhatsApp integration.

Easy data import feature

Migrate your existing data into DataNote effortlessly with our data import facility. Ensure a smooth transition without disruption to your operations.

Simplify Dynamic Tax Compliance

Simplify your dynamic tax compliance processes by integrating DataNote's GST and E-Way Bill features. Automate tax calculations and documentation for seamless compliance.
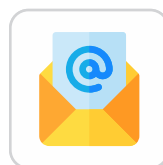

Ease in communication with Mailbox

Consolidate your communication channels with DataNote's mailbox integration. Centralize emails for efficient correspondence management and enhance collaboration.
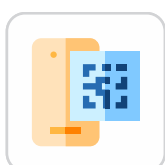

Effortless Handling of Multiple Currencies

Simplify international transactions and expand your global reach with DataNote's multi-currency handling capabilities.
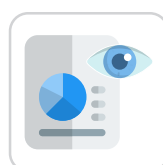

Flexibility Across Operating Systems

Access DataNote easily across various operating systems, ensuring compatibility and accessibility for all users.

Barcode and QR code integration

Enhance inventory tracking and management with DataNote's barcode and QR code integration, ensuring accurate stock management and efficient logistics.

Insights for Informed Decision-Making

Leverage the power of intelligent reports generated by DataNote to gain valuable insights into your business performance, enabling informed decision-making.

A Few of Our Customer's Insights

Client Name	: Kanhai Foods Ltd.
Products	: Bread, Cake, Chocolates, Snacks Manufacturing
Locations	: 1 Factory, 9 Kitchens & 100 Outlets
Number of Users	: 600+
Client Since	: 2018
Departments of ERP	: Sales, Planning, Production, Procurement, Finance, Quality, Logistics, Inventory

Client Name	: Diamond Sing & Foods Pvt. Ltd.
Products	: Peanut, Chana, Revdi, and Chikki
Locations	: 1 Factory & 20 Outlets
Number of Users	: 35+
Client Since	: 2020
Departments of ERP	: Sales, Inventory, Procurement, Planning, Production, Quality, Logistics

Client Name	: Austin Foods & Beverages Pvt. Ltd.
Products	: Sterilized Vegetables, Ready to Eat, Pulses
Locations	: 1 Factories & 2 Offices
Number of Users	: 25+
Client Since	: 2018
Departments of ERP	: Marketing, Planning, Production, Procurement, Finance, Export, Quality, Logistics, Inventory

Client Name	: Janki Group
Products	: Basmati & Non Basmati Rice Processing
Locations	: 8 Factories & 6 Office
Number of Users	: 90+
Client Since	: 2022
Departments of ERP	: CRM, Procurement, Production, Quality, Inventory, Logistics, Export, Finance

Client Name	: Bajo Foods Pvt. Ltd.
Products	: Keto Atta, Keto Snacks, Keto Cookies & Chocolates
Locations	: 1 Factory
Number of Users	: 10+
Client Since	: 2020
Departments of ERP	: Sales, Production, Inventory, Supply Chain, QC, Logistics
